High-Power Performance The Xerox G4 Pro Series (100-125 kW) is a utility-grade solar inverter designed for commercial and industrial projects requiring robust power delivery and consistent efficiency. With wide power capacity, advanced MPPT technology, and stable three-phase output, it is the ideal choice for large-scale solar plants and demanding environments.

Wide Compatibility

Built for performance, the G4 Pro Series delivers outstanding conversion efficiency, ensuring maximum energy harvest even under dynamic weather and load conditions. Its flexible DC input range and intelligent MPPT allocation enhance system adaptability for diverse installation scenarios.

Superb Safety & Reliability

The inverter comes equipped with smart monitoring and communication capabilities, giving operators full visibility and control of system performance. Remote management and real-time diagnostics ensure reliability, reduced downtime, and simplified maintenance.
