

2. Xerox G4 Pro 40-50kW (Three Phase Inverter 40 to 50kW –G4 Pro 40K/60kV -- G4 Pro 50K/75kV)

The Xerox G4 Pro Series (40–50 kW) is a next-generation three-phase inverter designed for large commercial and industrial solar projects. With a higher power range and quad MPPT trackers, it ensures maximum energy harvest, seamless scalability, and robust performance for utility-scale applications.

Wide Compatibility

Tailored for demanding environments, this inverter delivers top-tier efficiency and stable grid compliance. Its wide DC input range, adaptive power management, and industry-leading efficiency levels make it an excellent choice for long-term investment in clean energy.

Superb Safety & Reliability

Equipped with modern communication interfaces, the G4 Pro Series supports real-time monitoring, remote diagnostics, and data export for smarter operations. Whether on-site or off-site, operators gain complete visibility and control over system performance. Key Highlights:
